## LASER TATTOO REMOVAL PRE-TREATMENT INFORMATION

*\*please read & follow these instructions to ensure a comfortable & safe laser treatment experience*

1. In most cases we will conduct a pre-treatment procedure referred to as a patch test during your consultation. A site assessment & full treatment procedure will be scheduled no sooner than 2 weeks after the patch test.
2. We are relying on the information you have provided to us to accurately determine your most appropriate form of treatment. Please ensure that all of the information you have provided is correct.
3. We will contact you a minimum of **48 HOURS PRIOR** to your appointment. Verbal confirmation of your appointment is required so please keep us up to date with your best contact number.
4. Failure to arrive within 15 minutes of your appointment start time will forfeit your treatment session.
5. Our laser tattoo removal sessions are available in 3 & 6 treatment packages. Appointments can be scheduled 8 weeks apart.
6. Complete removal is not always possible & in most cases 6-12 treatments will be required to obtain maximum reduction. Your technician will do their best to provide a realistic expectation but many variables outside of our control can affect results.
7. It's important that your skin is at your natural tone prior to your treatment. Avoid sun exposure & artificial tanning for 4 weeks prior to your treatment.
8. Discontinue the use of self-tanning skin care products 4 weeks prior to treatment. Any residual self-tanner must be removed prior to treatment.
9. Our studios offers topical anesthetic options that may reduce discomfort during your treatment. These must be applied 90 minutes prior to your treatment so please inquire in advance if you're interested.
10. Please advise us if you're taking any medications that were not discussed at your consultation.
11. Please **DO NOT DRINK** alcohol within 24 hours of your scheduled treatment.
12. Guests are welcome to join you in our waiting area but only the client is permitted in the room.
13. Please do not shave or apply any lotions/moisturizers to your skin prior to your appointment.
14. Unfortunately we are unable to provide laser tattoo removal to anyone that is pregnant or nursing.
15. Please arrive for your appointment 15 minutes prior to your scheduled start time as there will be a consent form to complete.
16. Your laser treatment will take up to 2 weeks to fully heal & we recommend that you do not expose it to direct sunlight for 4 weeks. You will not be able to shower or expose your treatment area to hot water for 24 hours.

**Please contact your Memento Mori Studios Inc. Laser Technician with any questions.**
