AFTERCARE INSTRUCTIONS FOR HEALING YOUR NEW TATTOO
*carefully following our detailed aftercare instructions is a very important part of healing your tattoo.

H2Ocean Extreme Tattoo Care Kit includes 3 unique products *(soap/ointment/cream)* designed specifically to ensure the efficient, comfortable & successful healing of your new tattoo.

DAY 1
1. Leave the bandage on your tattoo for one hour after your appointment is finished.
2. Remove your bandage & gently wash your tattoo with **H2Ocean Blue Green Foam Soap** using warm water & only your hand/fingers.
3. Pat your tattoo dry with a clean towel & leave uncovered for the rest of the healing process.
4. Use clean bedding to prevent the contamination of your new tattoo. **tattoo may seep onto bedding*

DAY 2 & 3
1. Maximum 2-3 times daily, gently wash your tattoo with **H2Ocean Blue Green Foam Soap** using warm water & only your hand/fingers. Pat your tattoo dry with a clean towel.
2. Maximum 2-3 times daily apply a very small amount of **H2Ocean Aquatat Ointment** in a thin layer with your fingertips until it is fully absorbed.

DAY 4
1. Discontinue use of **H2Ocean Aquatat Ointment** & replace with **H2Ocean Care Cream**
2. Gently wash your tattoo with **H2Ocean Blue Green Foam Soap** using warm water & only your hand/fingers. Pat your tattoo dry with a clean towel.
3. Maximum twice daily apply a very small amount of **H2Ocean Care Cream** in a thin layer with your fingertips until it is fully absorbed.
4. Continue until your tattoo is fully healed. (Usually 6 weeks)
